OLIVER COLE BIOGRAPHY:

Having had some success with his first band Swampshack, Oliver Cole formed the three-piece rock band, Turn. Oliver was Turn’s singer, songwriter and main guitarist, and they soon signed to Infectious Records in London, which was home to Muse, Ash and Garbage, among others. Turn enjoyed great success and popularity, playing sell-out gigs at Vicar Street and a packed to the gills standout performance at the Oxegen festival in 2005.

They released three Irish Top 10 albums, ‘Antisocial’ (2000), ‘Forward’ (2003), and ‘Turn’ (2005) and were nominated for Ireland’s coveted Choice Music Award. Cole left the band in 2006 to begin work on his first solo album, ‘We Albatři’, which was recorded in Germany. Upon its release in 2010, The Irish Times gave the album 5 out of 5 and made it their album of the month. Oliver continued to progress his career as both a songwriter and solo artist, on ‘Year of The Bird’ which was released to huge critical acclaim in 2015.

‘Father Brother, Son’, Cole’s third album, was released in 2020. Unearthing themes of life and loss, birth and death, it explored the path from grief to recovery, following the passing of his mother and brother, in what we have and what we leave behind. The album was highly acclaimed upon release, being named Album of the Week by RTÉ, Newstalk, and The Irish Times.

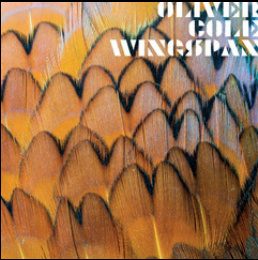

Late 2025 saw the release of Wingspan by Cole which also received a 5 star review from Tony Clayton-Lea on its release followed by his first solo headline tour of Ireland as well as opening for Duke Special in the UK on his 20th anniversary tour of his debut album. While landing a record deal with German based record label GMO-The Label with Wingspan seeing a foreign release later in the year.

Doubt, melancholy and memories swoop through Oliver Cole's songs like bats in a cave. He says his fourth solo album contains fragments of life stories viewed through a blurry lens. That implies ambiguity, but Cole is too smart a songwriter to hide what he means to say. Sonically, the bucolic mix of Joni Mitchell, Crosby, Stills & Nash and Beatlesesque balladry is exceptional.
