The band was born in Turin in 2026 after the end of the previous Electric Blue line-up, continuing the musical path of Giorgio Giardina and Elvis D'Elia, guitar and drums from the live journey that began in 2018.

With Michela on vocals and guitar and Orlando Barbuto on bass, guitars and acoustic textures, Electric Blue Experience revisits the Cranberries repertoire without trying to create a cold copy. It is a new voice, a new line-up and the same deep love for those songs.

The project keeps the emotional core of The Cranberries' music alive while giving it a fresh, intense and contemporary live form: Irish rock, intimate acoustic colours, powerful dynamics and the unmistakable melancholy that made those songs timeless.
